Education

University of California, Santa Barbara

Santa Barbara, CA

Double Major in Economics B.A. and Geography (GIS) B.A.

Sept. 2022 - June 2026

Projects

Gacho Real Estate Association Underwriting Project

May 2026

• Led deal analysis and underwriting for a \$1.9M, 8-unit real estate acquisition in Buellton, CA, building a comprehensive pro forma, financial model, and five-year business plan; presented deal summary and exit strategy to investors.

Pumped Hydroelectric Suitability Modeling

Apr. – June 2025

• Led site selection and due-diligence analysis for pumped hydroelectric energy storage across California, evaluating transmission access, land use, zoning, and environmental constraints using ArcGIS Pro.
• Built a multi-criteria suitability model integrating slope, solar potential, water bodies, and high-voltage transmission data to identify and rank 5 optimal development sites.

Experience

House Treasurer

Santa Barbara, CA

Isla Vista Student Housing Co-op

Sept. 2025 - Dec. 2025

• Audited \$21,000+ in total monthly rent and utilities payments for accounting errors, discrepancies, and late payments.
• Coordinated with Housing Co-op board members to resolve transaction issues, manage budgeting, and ensure organized bookkeeping.

GIS and Cartography Subcontractor

Sonoma County, CA

Barefoot Development

July 2026 – Present

• Serve as GIS and cartography subcontractor supporting site evaluation and due diligence for a large-scale, 100-acre retreat development project, assisting in the design process for tennis court, meditation pond, and event venue placement.
• Use QGIS to analyze slope, drainage, and spatial constraints and SketchUp to build 3D site models, producing topographic site plans, base maps, and grading and contour deliverables that inform site suitability and permitting decisions.

Esri Student Assistant

San Diego, CA

Esri

July 2026

• Selected for the competitive Esri Student Assistantship program to support technical sessions, user workshops, and event operations at the annual Esri User Conference in San Diego, supporting the core operational roles at the store, wristband, and registration desks.
• Expanded knowledge of Utility Network data models, digital twins, and ArcGIS Pro workflows for utility applications through technical sessions within the Esri ecosystem, as well as innovations in geospatial technology implementation.

UAS Technician and Geospatial Data Researcher

Iowa City, IA

University of Iowa Physics and Astronomy Department

July 2025 – August 2025

• Engineered custom 3D-printed payload housing to secure LiDAR and RGB sensor arrays onto a DJI Matrice 300 RTK drone.
• Integrated microcontrollers, Raspberry Pi, battery power systems, and sensors via custom circuitry; developed automated Python pipelines to collect, structure, and integrate raw sensor and geospatial data.
• Conducted 6 UAS data acquisition flights capturing LiDAR point clouds and photogrammetric data over preserved grassland sites.
• Executed spatial suitability and canopy height modeling using LiDAR datasets and Structure from Motion (SfM) photogrammetry; performed geospatial data quality control (QC) and presented findings at a university research symposium.

Apprentice Tradesman

Sonoma County, CA

Part-time

May 2019 – June 2026

• Performed residential electrical, construction, plumbing, landscaping, and property-maintenance work while in school, working under various contractors.
• Planned and executed residential electrical and plumbing layouts, operated heavy equipment, and adapted work to field conditions.
• Managed project design, budgeting, scheduling, and quality control while maintaining a 100% commitment to job-site safety and risk mitigation.

Technical Research Intern

Santa Barbara, CA

The Nature Conservancy (Bren Environmental Leadership program)

June 2024 – September 2024

• Authored technical workflow documentation and deployment guides for deep-learning based whale detection software, collaborating with NOAA and The Nature Conservancy scientists to ensure data integrity and consistency.
• Applied CNN and machine-learning frameworks for spatial image classification and large-scale geospatial queries.

UCSB Geography Club Co-President

Santa Barbara, CA

UCSB Geography Department

Sept. 2025 - June 2026

• Participated in organizing club events, student engagement, administrative tasks and planning throughout the school year.

Skills and Certificates

• **GIS & Esri Products:** 3+ years using GIS software, including ArcGIS Pro, ArcGIS Online, QGIS, ENVI, Google Earth Engine
• **Geospatial Data & Databases:** Geodatabases, spatial data integration, database management, quality control (QC), LiDAR processing, remote sensing, image classification, network analysis, suitability and risk analysis
• **FAA Part 107 Licensed Drone Pilot:** Photography, videography, photogrammetry, mapping, 3D modeling, LiDAR collection and inspections
• **Programming & Querying:** Python (pandas, GeoPandas), SQL, R, C, C++, C#, JavaScript, HTML, CSS
• **Technical Support & Communication:** Technical-session and GIS-workshop support, workflow documentation, troubleshooting, and cross-functional collaboration
• **Microsoft Office & Google Suite:** Excel, Word, PowerPoint; Docs, Sheets, Slides, Forms, Drive
• **Quantitative Coursework:** Econometrics, economics, finance, accounting, financial statements, pro formas, and financial modeling
• Permaculture Design Certificate (Permaculture Artisans)
